1. When Passengers adding value to their Breeze Cards, if the card's current balance adding value passengers add exceeds $1000.00, the application will display the error message and stop transaction; otherwise, the application will write new total value to database.

2. When Administrator setting the balance of a Breeze Card, if the value that Administrator entering in is not in (0,1000] dollars interval, the application will display the error message and stop changing the balance; otherwise, the application write new balance of Breeze Card to database.

3. When Passenger taking trips, the Breeze Card that Passengers chooses should have enough balance to pay the cost and the card itself is not suspended. If these two requirements are satisfied, the trip can be taken; otherwise, this passenger is not ready to take trip with this Breeze Card.
